

Perennial Starter Plants

What are Perennials?

Perennials are simply plants that live for more than 2 years, but without the woody growth of shrubs and trees. Perennials, especially small flowering plants, that grow and bloom over the spring and summer, die back every autumn and winter, and then return in the spring from their root-stock, are also known as herbaceous perennial. Traditionally these are grown in flower beds and borders, although they can also be stunning in containers when planted in clumps of 2 or 3 plants.

First Year Flowering!!

Our range of perennials, have been specially selected so that they flower in their first year. They have been spring sown, to give you a high quality vigorous plant with an already developed strong root system.

What are Perennial Starter Plants

These are Jumbo 5cm plug plants that are ready to plant straight into beds, borders, pots or containers, and they should be full of flowers within 6 to 8 weeks.

How are they sold?

NEW FOR 2016:- Our Perennial Starter Plants are now sold as individual plants, so you can mix and match your own collection from own range of 23 specially selected perennials.

Our minimum order for Perennials is just 1 plant!

The price is great value at only £1.50 per plant

Delivery

Our Perennials are despatched weekly from May 3rd until June 7th. We normally send our plants by Royal Mail parcel service and they are posted out on the Tuesday of each week. We always post on a Tuesday to ensure that the plants reach you within 48 hours and so that they are not held up in the post over a weekend, thus ensuring that they reach you in perfect condition.

Since we use the Royal Mail to send parcels, unlike other companies we don't charge extra for delivery to Northern Ireland, Guernsey, Jersey, Isle of Man or other UK islands. Our Postage and Packing charge is only £4.99 per delivery week.

Our Superb Range of 23 Perennial Starter Plants

All Just £1.50 per Plant! Supplied with a large information pot label
